

UNWRITTEN LAW TO BE DEFENSE OF DUAL MURDERER

San Diego Man Says Home Was Despoiled.

FIRE NINETEEN SHOTS AT
HIS EMPLOYER AND
WIFE.

THEN STABS VICTIM
WITH BIG DAGGER.

RECENTLY SUED FOR DAMAGES BUT WIFE WAS
RECONCILED.

By United Press.

San Diego, Cal., May 27.—Showing no emotion as he sat in his cell in the city jail, Bert G. Lewis today repeated his confession of last night that he had slain both C. H. Toliver and his wife as they were entering their home here late Saturday night. He refused to outline his defense but it is believed he will plead the "unwritten law" and will allege that Toliver was responsible for the present condition of Mrs. Lewis. Coroner Bell today began his inquest into the affair, intending to pay particular attention to the question of whether Toliver or his wife died first.

The shooting was direct result of quarrels between the two men lasting several months. A year ago Toliver, who was an airship inventor employed Lewis as his secretary and chauffeur and also employed him in connection with the business of the Toliver Aerial Company. The two men soon quarreled and a break between Mrs. Lewis and her husband followed. Lewis suing Toliver for \$10,000 damages for alienation of her affections. Before the suit came to trial, Mrs. Lewis was reconciled with her husband.

Lewis admits that he planned deliberately to slay Toliver, saying: "If I hadn't done it, some one else would." He went to the Toliver home here tied up a pet dog and hid himself in the shrubbery armed with two automatic revolvers and a dagger. When Toliver and his wife drove up in an automobile Lewis opened fire. Nineteen shots were fired.

Toliver was struck by several bullets, but not mortally wounded. His wife stepped before him to shield him and Lewis fired two shots at her. One bullet struck her in the mouth and the other in the head, both inflicting mortal wounds. She kept her strength long enough to rush into the house and call the police station but died before she could tell the police her trouble.

Meanwhile Lewis continued to shoot at Toliver, seventeen bullets penetrating his body. Nevertheless Toliver was able to stagger into his house after his wife, Lewis following close behind. Toliver fell on his face in the parlor, and then turned over on his back as Lewis, drawing his dagger, stabbed the prostrate man through his heart and abdomen several times.

Lewis immediately left the house but was caught by the police before he reached his home.

Mrs. Lewis visited him at the jail today and pleaded him her unforgiving support.

REPORTERS NEED NOT BREAK CONFIDENCES.

Milwaukee, Wis., May 27.—A question involving newspaper men and the inviolability of a confidence bestowed in a newspaper man has been definitely settled in Milwaukee, when a local Circuit Judge announced that he would refuse to require a reporter to testify as to the source of his information in regard to a news article he wrote.

The case centered about the selection of property for county use. A local paper sent Dr. A. T. Abernathy, former assistant editor of the Philadelphia Record, and a brother of Captain Jack, of Rough Rider fame, to investigate the situation.

His review caused Attorney J. Killilea, former owner of the Boston American Baseball club to demand that Dr. Abernathy testify as to the source of his information. Judge Turner told Attorney Killilea that a newspaper man would not be forced to disclose his informant's identity.

BODY FOUND FLOATING IN OHIO RIVER

ENGINEER WITH THROAT CUT
BELIEVED TO HAVE BEEN
MURDERED.

(By United Press.)

Freedom, Pa., May 27.—An immense crowd is expected here tonight when the coroner's inquest into the death of C. R. Royal, the Pennsylvania engineer, whose dead body was found in the Ohio river Saturday, is held.

That Royal was murdered is certain, declare the county detectives. His throat was cut with a sharp instrument. There were signs of a struggle in the cellar of the dead man's home and bloodstains leading from the house to the river.

Much concern was caused last night when it was discovered that Royal's widow had disappeared. Later it was learned that she had obtained permission from the county authorities to attend the funeral of her husband in Jamestown, Pa., this afternoon and would return in time for the inquest.

PARTICIPANTS FORFEIT-
ING BONDS.

The city coffers were enriched just \$100 this morning by the failure of the three participants in the Saturday night poker game raided by the police at 790 north Main street, to appear in mayor's court.

The proprietor of the place, Lawrence Pratt, 40, forfeited a cash bond of \$50.00, while Harry Davis and Sam Lowry, forfeited bonds of \$25 each.

The game was progressing quietly in the rear of a restaurant when a posse of police surrounded the room and arrested the three participants. They admitted their guilt, Saturday evening. The jack-pot containing about \$5.00 was taken by the police.

REFUSES TO STOP

LORIMER WILL NOT GIVE UP HIS
SEAT IN SENATE.

(By United Press.)

Chicago, May 27.—The Tribune here today prints the following: "Wm. Lorimer refused to resign as United States Senator from Illinois and such is the message which Vice President James S. Sherman carried into Washington yesterday afternoon."

"This information came out of the cloud of evasion, denial and refutation which was perfected by personal and legal allies of Mr. Lorimer yesterday, some of whom went to the point of denying that the vice president had been in Chicago."

"The outcome of the situation, apparently, and borne out by the course will be taken immediately by the friends of the senator, that he will force his friends in Washington to go the limit, probably, until the eve of the decision vote, and then perhaps he will resign."

"On Saturday, however, Senator Lorimer, in spite of all entreaties and promises, advice and expostulation, permitted the word to go back to Senators Penrose and Crane and supposedly to the White House through vice president Sherman that he will not quit the Senate from Illinois."

PUFFING CIGARETTES SERENELY IN A MARKET STREET STRAW BARN.

STARTS A BLAZE SUNDAY THAT
THREATENED WHOLE
SQUARE.

The old, old story of small boys, cigarettes and a straw barn, was re-enacted, Sunday afternoon, in the gutting of a large barn at the rear of the home of Charles Stolzenbach, 724 west Market street.

Cigarette "snipes" found around tip-premises and a couple of young lads loitering about the premises bore out the belief that the youngsters were responsible for the blaze. Chief John Mack is conducting a quiet investigation. The blaze was discovered shortly after 4 o'clock and an alarm pulled from box 83. Both the Central and West Side departments responded but the blaze had gained such headway that efforts were only made to confine the blaze to the one building. The barn was completely gutted, entailing a damage of \$250 which was fully covered by insurance. A barn at the rear of Frank Lamb's home at 722 west Market street which adjoins the Stolzenbach property was damaged to the extent of \$25.00.

FIGHT IS HOT NOW

BETWEEN HARMON AND ANTI-
HARMON FORCES OVER
UNIT RULE

Columbus, O., May 27.—With many Democratic county conventions scheduled for this week, at which delegates to the state convention at Toledo next week will be chosen, the fight between the Harmon and the anti-Harmon forces over the unit rule was resumed.

Of the 439 delegates already selected according to reports from the different counties, 154 have been instructed by the county convention to support the unit rule. 191 have been instructed to oppose it, while 89 were given no instructions on the presidential convention.

A large majority of the county conventions held Saturday, endorsed Governor Harmon's presidential candidacy, but only a part of them instructed for the unit rule.

Walter F. Brown, Roosevelt manager, claimed today Roosevelt will have at least 400 delegates in the Republican convention next week to 354 for Taft.

In the Republican county conventions Saturday, reports give Roosevelt 103 delegates to 35 for Taft. Uninstructed delegates total 79.

State Insurance Commissioner, Ed. H. Moore, Governor Harmon's Ohio manager, is the latest gubernatorial possibility on the Democratic side. He is expected to give his friends a definite answer within the next few days.

TAFT SAYS U. S. WON'T INTERVENE

Elizabethport, N. J., May 27.—President Taft today sent a message to President Gomez, of Cuba, assuring him that the United States will not intervene in Cuba.

In his message to the Cuban executive the President says that the sending of American marines to Cuba at this time is for the purpose of protecting American interests only.

At the same time the text of this message was given out at the state department, it was intimated that the course of the government in the present situation would not be guided by advices from the Cuban government. The state department policy will be determined by advices from its consular agents. Especially important will be a report from the commander of the Paducah which is making a personal investigation at Nipe Bay. He is expected to inform the department of conditions at the center of the trouble within the next few hours.

It is rumored at the navy department that the reserve fleet now at Philadelphia, is to be held in readiness in case a further display of force is necessary in Cuban waters.

SHOT IN HEEL WINGED HIM

(By United Press.)

Chicago, May 27.—As was the case with Achilles, it was possible to wound Norman Knutsen in the heel. He learned that early today. Knutsen was peacefully submitting to a search by three hold-up men. The trio had held up two other persons last night and two detectives were on their trail.

The officers were half a block away when they saw the hold up in progress and rushed upon the scene with drawn revolvers. The three holdup men ran. Knutsen thinking the detectives might be confederates of the three holdup men, or a band of robbers, also ran. One of the detectives fired. Knutsen fell wounded in the heel. The holdup men escaped.

PEACH

CROP OF GEORGIA TO BE A MAMMOTH ONE.

BERRY SEASON ABOUT OVER IN THE SOUTH—CANTELOUPES READY.

Reports coming to the trade this week from a number of large Georgia shippers shows that this year's peach crop will be a large one. Rains have been heavy recently, however, and it is feared that brown rot may yet affect the crop. All of the large orchards have been

sprayed and cultivated throughout the winter and spring. Canteloupes are now ready, the first shipments out of the south coming this week.

A letter from Will R. Burba to Lima relatives announces that the berry season in Louisiana and Mississippi is over. He has had charge of berry shipping for the American Express Company for many seasons, that company carrying almost all of the berry output to the north and east. He states that he has shipped through as high as six trains of ten cars each a day, more than five thousand cars being billed to points north of the Ohio river and for New York and eastern markets.

This season's crop was short, owing to floods in the Mississippi valley and growers who have heretofore cleared from \$2,000 to \$3,000 a year on berries have in many instances barely pulled out whole according to Mr. Burba. He states that immense shipments of Georgia melons will start by the middle of next week.

A HARMLESS WAY TO DARKEN THE HAIR

A LITTLE SAGE AND SULPHUR MAKES GRAY HAIR VANISH A REMEDY FOR ALL HAIR TROUBLES.

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called, Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

HIGH STANDARD OF DIVINE JUSTICE

Two Pentecosts—One For the Church, Other For the World.

THROUGH REDEEMER'S WORK.

Pastor Russell Says the Divine Plan, as Revealed in the Bible, Provides Two Distinct Salvations, One For the Church, the Other For the World. Salvation of the Elect Will Be on a Higher Plane Than That of the World—Earth's Great Jubilee at Hand.

(PASTOR RUSSELL)

Chicago, May 26.—Pastor Russell gave two addresses here today. We report one of his addresses, on "Pentecostal Blessings," from the text, "The grace of God which bringeth salvation hath appeared for all men." (Titus II, 11). He said in part:

As Bible students we find it more and more necessary to study the Scriptures discriminately. Righteousness and justice represent the Divine Law, the Law of the Universe. On the other hand, such words as Mercy and Grace recognize man's fall from righteousness and tell us of the Divine sympathetic provision being exercised toward mankind with a view to their deliverance from their unrighteous condition—the opening of a way for their return to perfection and harmony with God, and to eternal life privileges of righteousness.

Every suggestion and arrangement looking toward Divine mercy is Scripturally associated with our Lord Jesus—the world's Redeemer. His death provides the ransom-price for Adam and his race, while His Messianic Kingdom is provided as the means or channel by and through which the willing and obedient of the redeemed will be brought back to perfection and made able again to fulfill the requirements of justice and enjoy its blessings.

Hence we find the Scriptures continually setting before us the high standard of Divine Justice, and also setting before us the fact that Divine Love has provided mercy for the sinner through the efficacy of the Redeemer's work. For centuries God exhibited the principles of Divine Justice, not only in His Law, which He gave to Israel—the measure of a perfect man's ability—but also in the fact that Christ died, "the just for the unjust," that He might bring us back into harmony with God and His righteousness.

Hitherto, however, God's people have unwittingly narrowed down the grace of God and minimized the work of Christ and the efficacy of His redemptive sacrifice by asserting that all of the blessings are for the Church and none for the world—that they are for the present age, and that with its consummation all hope will expire, and the world, the non-elect, will suffer to all eternity without ever having tasted of the grace of God in Christ—without ever having come to even a knowledge of that provision for sinners.

Two Salvations—Two Pentecosts. A more careful study of the Bible is revealing to God's people all over the world the fact that He has for mankind two distinct salvations—one for the Church and the other for the world—and each of these salvations is introduced by a Pentecostal blessing. That the Church is merely a first-fruit unto God of His creatures is distinctly stated by St. James (I, 18), and this certainly implies that there will be after-fruit—the world in general.

Note the Apostle's statement respecting the meritorious value, the efficacy of Christ's sacrifice, both for the Church and for the world; he says: "He is a Propitiation for our sins (the Church), and not for ours only, but also for the sins of the whole world." (I John II, 2). The Church is the elect "first-fruit," or as St. Paul declares, "The Church of the First-born, whose names are written in heaven." Through this elect Church eventually the blessing of God is to be extended to all the willing and obedient of the non-elect. This does not mean that all mankind will attain salvation, everlasting life, but it does mean that to all will come the opportunity for escape from the curse of sin and death which came upon all through Adam's sin.

Neither does it signify that all who gain life will gain the same kind of salvation—that all will gain everlasting life on the same plane of glory. Quite to the contrary. The fact that the elect Church is called and tested in advance of the world, implies that her salvation will be on a higher plane than that of the world, and this the Apostle clearly states when he assures us, "We must all be changed," because "death and blood cannot inherit the Kingdom of God."

The change of nature from earthly to heavenly, from the human to the divine, is a part of the superior blessing provided by the Lord for those who now walk by faith in the footsteps of the Redeemer. The blessings to the world, on the other hand, will not include a change of nature, but a restitution or restoration of the willing and obedient to human perfection, such as Adam enjoyed before he sinned, before he came under the curse. Redem-

tion, therefore, is synonymous with the blotting out of the curse.

Our Pentecost—and the World's.

There can be no dispute respecting the Church's Pentecost, that it began on the fiftieth day after our Lord's resurrection—ten days after He ascended up on high, there to appear in the presence of God—as the Church's Advocate. But just what that Pentecostal blessing meant to the Church is perhaps not clearly seen by all—all who have experienced a share in its blessings. It marks the Divine acceptance of the Church—the Divine grace which acknowledged the merit of the Savior as applied on her behalf, and acknowledged the Divine acceptance of the Church as a faithful band consecrated to walk in Jesus' footsteps.

There has been no need of a repetition of this Pentecostal blessing. It came at the beginning of the Church's experience, and represents God's acceptance of the entire forerunner company, for all of whom Jesus appeared as Advocate. Those blessed with that outpouring of the Holy Spirit had already accepted Jesus as their Redeemer, and had already consecrated the lives to be His footstep followers. All of the same class who have lived since—all who will eventually constitute the elect Church, were appeared for by Jesus at the same time. Hence we are not to expect fresh Pentecosts upon the Church, but merely to expect to enter into and enjoy our share of the one outpouring of the Holy Spirit, which, like the oil poured upon Aaron's head and which ran down to the skirts of his garment, will anoint us, the Church, down to the "feet," to the very last member of the Church.

Many of us had not noticed until recently that two Pentecostal blessings are mentioned by the Prophet. Our overlooking this was doubtless because it was not due time for it to be clearly understood. Now, as the time nears for the fulfillment of the second Pentecostal blessing, the force and meaning of the Scripture shines out. Another reason for its being overlooked is that by Divine arrangement the world's Pentecost was mentioned first, and that of the Church last. But even this is appropriate, because the Divine intention was primarily the world's salvation, and that of the Church comes incidentally. "God so loved the world that He gave His Only Begotten Son, that whosoever believed in Him should not perish, but have everlasting life." But before making known the riches of His grace to the world, God has been pleased to foreordain the election of the Church, to be joint-heirs with Jesus in the glorious work of blessing earth's teeming millions.

Notice How the Text Reads: "It shall come to pass, saith the Lord, at the end of those days, that I will pour out My Spirit upon all flesh. . . . And in those days I will pour out My Spirit upon My servants and upon My handmaidens."—Joel II, 28, 29; Acts II, 17.

St. Peter, in quoting the prophecy, properly applied only the portion which was due in his day, namely, that portion applicable to the servants and handmaidens of the Lord—the Church class. He left without comment the major portion of the promise, which relates to the world, and which cannot have fulfillment until the elect Church shall have been completed and glorified. The two features of the prophecy are distinctly marked, the one blessing to be upon God's servants and handmaidens only, the other to be upon all flesh. The one was to be "in those days," the other, "after those days."

How strange, then, that this was previously overlooked, and that the Jews and the Apostles themselves overlooked many statements of prophecy which indicated the ending of Jewish favor and the beginning of a glorious opportunity of joint-heirship with Christ to the Gentiles. That part of the prophecy was discerned only when the due time came, and this feature of Joel's prophecy pertaining to the blessing of the world and the outpouring of God's Spirit upon them passed unnoticed until now, as the time nears for its fulfillment.

There can be no question that the Holy Spirit of God has not yet come upon all flesh, nor can it be questioned that it has come during this Age upon God's servants and handmaidens. The promise therefore is amongst the blessings that are to be accomplished after these days—after the completion of the Church and her glorification.

Jubilee Day—Jubilee Year.

The day of Pentecost was the grand Jubilee Day in which God's blessing was attained marking the forgiveness of sin and the acceptance by the heavenly Father. It was the 50th day (7 x 7 plus 1). Every Jewish Sabbath pointed directly to this Jubilee Day as a culmination of the Sabbath day system. It was thus the antitype toward which all Sabbath days pointed. The word "Sabbath," as is well known, signifies rest, and this culmination of the Sabbath days in a fiftieth day signified the ultimate or completeness of rest. Thus was symbolically taught in the Law the fact that full rest from sin and the Law was to be attained.

On Pentecost Day the living believers of that time entered into rest in a sense and degree never before enjoyed or even understood. The Pentecostal blessings of the Holy Spirit poured forth to them the full assurance of sins forgiven, through the merit of Christ's sacrifice, and it also brought to them proof of their acceptance by the heavenly Father, as children of God, and "if children, then heirs of God and joint-heirs with Jesus Christ our Lord." In this sense of the word Pentecost was the most notable day of the grace of God for the Church. And God's servants and handmaidens ever since, upon taking the steps required, have

been admitted to this grace of forgiveness and adoption.

But it will be remembered that in the Law given to Israel there was not only a seven-day series of Sabbaths, but also a seven-year series of Sabbaths. Each seventh year was to be a Sabbath year, leading up to a Jubilee (7 x 7 plus 1), the fiftieth. As the day Sabbath reached a glorious culmination for the Church, so the year Sabbath will reach a glorious climax for the world. The fiftieth year was the Jubilee Year, in which the people obtained rest in a very full and complete sense. In that year all debts were canceled, and all who had been sold into slavery for debt went free. The whole people had a fresh start every Jubilee Year; they had rest from all their past errors and imperfections of conduct and judgment.

This pictured the coming blessings—the Day of Messiah—when He shall reign and when through the merit of His sacrifice all sin will be forgiven and all slavery to sin and death will be abolished. This is not a new thought. Long centuries ago Bible students discerned that the Jubilee of Israel's time was a feature of the Law foreshadowing a blessing world-wide. It was in the spirit of this knowledge that this beautiful hymn was written:

"Blow ye the trumpet, blow
The gladly solemn sound;
Let all the nations know
That earth's redemption bound:
The Year of Jubilee has come,
Returning ransomed sinners home.
"To who were sold for naught,
Whose heritage was lost,
May have it back brought,
A gift at Jesus' cost:
The Year of Jubilee is come,
Returning ransomed sinners home."

As the Church has been, for more than eighteen centuries, enjoying the blessings and privileges typified by the fiftieth, or Jubilee Day, so the world for a thousand years will enjoy the blessings and privileges typified by the Jubilee Year. But let us not be misunderstood; the Millennial blessings will not be forced upon all men. Rather, they will be exhibited to all, and the eyes of the blind of the world will be opened and all will thus be privileged to know of, to appreciate and to enter into the enjoyment of the Jubilee blessings. But those desiring to share in the world's Pentecostal blessing will be required to take the necessary steps to obtain them; but with the clear knowledge then granted the Bible declares that those steps will be:

"The Desire of All Nations."

Note the correspondence between the coming of the Pentecostal blessings to the Church and the world's attainment of its Pentecostal blessings. God did not pour out His Holy Spirit upon His servants and handmaidens all at once, but gradually throughout this Age. And each individual, in order to obtain his share in this Pentecostal blessing, has been obliged to take very definite steps of consecration, vows of obedience and loyalty. Just so the pouring out of the Divine blessing upon all flesh during the thousand years of Christ's reign will be gradual.

In order for the children of men to obtain that great blessing, it will be necessary for them first of all to recognize the Redeemer, the Savior, the great King of that time. Moreover, it will be necessary to fully surrender themselves to Him, and to come under the terms of His blessings. Only such will be fully liberated and be received of God as children upon the human plane. Thus it is written, "He that hath the Son hath life, and he that hath not the Son shall not see life."

The work of setting the world free from sin and death will be a gradual one. Collectively it will be gradual, because the resurrection of the dead is to be a gradual work; as the Apostle declares, all will come forth, but "every man in his own order." (I Corinthians xv, 23). It will be a gradual work because, although the Messianic Kingdom first offers satisfaction to justice for all, at the very beginning of the Kingdom, nevertheless release will be granted only in proportion as loyalty is demonstrated to the principles of righteousness and truth.

Nevertheless their full attainment of the Heavenly benediction—their full acceptance of life eternal—will not come to them until the close of the thousand years. Then, after having been lifted up to perfection by the great Mediatorial King and Messiah, after having been taught of Him, after having enjoyed the full privilege secured by His ransom sacrifice, they will still be required to stand a further test before receiving a Divine pronouncement respecting their worthiness of eternal life as sons in the flesh.

That testing is pictured to us in Revelation 20, in the statement that "Satan shall be loosed for a little season" at the end of the thousand years, that the loyalty or disloyalty of heart of all the human family then brought back to human perfection may be tried, tested, proved, demonstrated. Such as shall prove themselves loyal to God at heart will stand in that hour of temptation, and all who prove disloyal will be but showing that if they had opportunity they would resume the life of sin and disloyalty to God; and such—we know not the proportion—will be destroyed in the Second Death.

The testings of the faithful, both in this age and in the next, are designed of the Lord to be so crucial, so thoroughly demonstrate the thoughts and intents of the heart, that Divine Wisdom is able to guarantee that those who will pass these tests will be forever loyal. Hence the prediction of the Scriptures respecting the eternal future—that there shall be no more dying, no more crying, no more sighing, because all the former things of sin and death will have passed away.

Then every creature in heaven and on earth will joyfully acclaim honor to Him that sitteth upon the throne, and to the Lamb, forever.

Soda crackers are extremely sensitive to moisture.

Before the advent of Uneeda Biscuit the only persons who ever tasted fresh, crisp soda crackers were the people in the bakeries.

Now that we have Uneeda Biscuit—we have perfectly baked soda crackers—perfectly kept.

No moisture can reach them—no contaminating influences can affect their flavor—their goodness is imprisoned only to be liberated by you for you when you open the package. Five cents.

HOT WEATHER

MAN FOR REMAINDER OF WEEK.

Special to The News.

Wapakoneta, May 27.—F. J. Rogers, alias George O. Thompson, Hot weather is promised for the first while record-breaking salesman week over the greater part of the country east of the Rockies, according to the weekly bulletin of the Weather Bureau, issued last night. While temperatures will be above the normal on this side of the Rockies they will be generally below on the Pacific Slope.

Considerably cooler weather, however, says the bulletin, will appear in the Northwest about Thursday, and overpread the Middle West by the end of the week. The barometric pressure will remain low, with showers in the northwestern districts during the next several days, and a well defined storm area will overpread the Middle West Wednesday or Thursday and move eastward to the Atlantic states Friday or Saturday.

Except for the showers and thunderstorms attending this disturbance the week will be one of generally fair weather.

At Least a Movement for Health. In the Paddington borough of London, if you operate a tenement or apartment house, you must sweep the floors of all rooms once a day, wash them once a week and open the windows of all sleeping rooms for at least one hour in each day or pay a fine of \$25. It may not be possible to make the people moral by law, but the borough council of Paddington believes much can be done to make them healthy.

CIGS LEAVE FOR SECOND FOREIGN INVASION OF SEASON

MUNK'S WILDNESS RESPONSIBLE

(By L. N. Prince)

In a long-drawn out twelve inning set-to in which both Clgs and Cubs vied with each other in being the most magnanimous, our grace-ful athletes headed by that tactful urterer, Mr. Rudolph Munk, of Columbus, Ohio, were outdistanced by the visiting crew led and driven by that veteran skipper, Mr. Peter Childs, by a count of 8 to 7.

A nerve wrecking affair which axed the patience of even the most royal fan, but which was interesting because of the fact that the visiting crew, which was carded on the an Felician stadium before a varied assortment of 1,500 bugs who elled, frantically so, for those chilling Stogies to again snatch the game out of the fire after Peter Childs' crew had rudely tied up things in the seventh by sending a quartet of counts across the plate, thanks to the superb lack of control on the part of the faithful tudent. For, let it be known, at this juncture, the tactful lad was decidedly off color. His usually effective spitter, an enigma to visiting clubs, was not on its good behavior before the Sabbath madnee rowd, and as a result the finger as responsible for the issuance of less than a dozen free tickets to the introduction sack, a season's record in itself. When the hefty lad located the plate, unfortunately, some clubbing Cobs took most

kindly to his delicious offerings and propelled them outward with headish frequency.

Opposed to Mr. Munk on the firing line was Frank Harter, the Sucker State Phenom, of Keyport, Illinois, who went great guns for seven innings. After the seventh, though, the doughty Pete felt a premonition that a belated rally was enroute, and to avert a repetition of the sixth, lifted the bronzed heater. In his place was planted the invincible Eddie Hartwig, who held our lads to a couple of measly bingles for the remainder of the game.

To one man principally can the defeat be attributed. The finger, himself, is the guilty party. Rudy was as wild as a March hare and 7 sorts of windmills. In the seventh inning alone, he paraded five men, forcing a run across the plate. Fans implored that he be derrickled but Manager Wrigley paid a deaf ear to all their entreaties, and the big heater was retired to continue on his mad tear.

The locals broke the ice in the third inning. Munk's single, Burke's sacrifice and Childs' slipp on Hobbs' grounder were responsible. The visitors tied things up in the fourth on Conwell's single, Edwards' pass and Southworth's sizzler to right. In the next inning, another was added by those clubbers. Harter stroled but was forced at second by Baggan. Conwell was walked purposely, but Biddy Beers cut in with a single scoring the left fielder.

In the sixth inning the Childs ship went completely to pieces and the Stogies steamed a quintet of runs into port. Smoky Hobbs started the trouble by singling to left after Wrigley had grounded. Nesser was safe on Baggan's muff. Daubert singled to center scoring Hobbs and Nesser, and taking third during the mixup. Long forced Daubert at the plate, but Beers permitted Edwards' throw to trickle through him and Harry registered. Francisco walked. Friend was safe

on Harter's fumble. Long scoring. Francisco scored when Beers threw wild to second to catch him napping. Munk walked; Burke fouled to Beers and Wrigley flew to H. Cain.

Undaunted by a four run lead those Cobs proceeded to again tie up things in the seventh. After Rube Harter had whiffed, Baggan doubled to center. E. Cain walked and Conwell doubled to left, scoring Baggan and Cain. Beers walked and stole. H. Cain walked, congesting the bases. Munk continued his wild ride by walking Edwards and forcing in Conwell. Southworth grounded forcing Beers at the plate. At this juncture, Munk climaxed the situation by making a balk. H. Cain patterning over the pan. Childs walked but Nick's quick throw at second caught Southworth napping and retired the side. All further scoring was deferred until the 12th. H. Cain opened with a sizzler past Nesser. Edwards forced him and was in turned forced by Southworth. Childs walked and Hartwig walked filling the bases. Baggan singled to short scoring Southworth. Childs tallied when Long made a muss of E. Cain's grounder. Hartwig attempting to score, was cut down at the plate, Nesser to Francisco.

Despite a valiant effort to again complicate things again in the 12th, the Wrigley gang fell down by one run. Zeke opened the chapter by firing a hot single to right. Hobbs grounded and Nesser walked. Daubert fanned in this crisis. Wrigley stole third and scored on Childs' error of Long's roller. Long stole, but Nick couldn't deliver the needed wallop and the game was lost.

JOHNSON ARRIVES AT LAS VEGAS
(By United Press.)
Las Vegas, N. M., May 27.—Jack Johnson today took formal possession of his training quarters at Forsythe ranch and began training for his fourth of July battle with Jim Flynn, the Pueblo fireman. Johnson and his party arrived last night. A huge crowd headed by a band meeting him at the depot.

As soon as the black champion had been paraded around town in an automobile, he was driven to his training quarters. He thanked promoter Jack Curley for having chosen such attractive quarters for him. They are about eight miles from the city.

MR. GEORGE CARPENTER, champion middleweight of France and England, the young Englishman did not come up to the expectations of the American fight fans in his recent battle in Paris, when he allowed Willie Lewis, the New York middleweight, now about all in, to stay twenty rounds. The fact that Lewis has long ago seen his best fighting days, gave rise to the general opinion that the much touted young French battler would dispose of him long before the end of the bout.

CRESCENTS DEFEAT ST. ROSE SCHOOL

Gordon's tight pitching won an interesting game for the Lima Crescents over St. Rose High school, yesterday afternoon at the Haller street grounds. Gordon allowed 3 measly hits for a total of five runs while Connors for the high school lads was slapped for eleven hits and an equal number of counts. A couple of two-runners by Tobin and Rorche's timely triple featured the game.

FRAUD CHARGES

ARE RIFE IN DISTRICT OF COLUMBIA PRIMARIES TODAY.

(By United Press.)
Washington, May 27.—With all the fraud and blunders of a real election, the Democratic primaries of the district of Columbia are being held today. It is a "Jim Crow" primary, all of Washington's 90,000 negroes being barred from the polls.

In the battle for the six delegates to the Baltimore convention, there are three tickets, two instructed for speaker Clark and one for uninstructed delegates. Other candidates have no entries in the field.

Charges of fraud and soap box primaries are rife. Any one, Republican or Democrat is said to be free to cast a ballot.

Watching the Box Score

The Reds drew further away to the rear of the Giants by losing a heart breaker to the Cardinals.

After being hammered all over the lot in the third inning, Harmon held the Reds scoreless for nine frames more and his teammates won out in the twelfth.

Extravagant with his free passes Mr. O'Toole tightened up in pinches and led the pirates to victory over the Cubs.

Tyrus Cobb, of strike fame did not shine with his usual brilliancy against the White Sox but the Tigers won.

The White Sox clouted Mullin safely five times in the ninth but dumb base running netted them only one run.

The veteran Peltz outpitched Gregg and St. Louis won its second straight game from Cleveland.

When Shotton misjudged Jackson's hard drive in the ninth, the

feet Nap stretched it into a homer and saved Cleveland from a shut out.

The Giants and White Sox are ahead on every series they have played this season.

Besides twirling for a perfect percentage, Rube Marquard has a batting average of .294.

For the first time this season the Yankees traveled at better than a .500 gait last week. They lost three games and won four.

Jeff Holmquist, former Portsmouth twirler, held the Ft. Wayne club to two hits yesterday and won his game for Canton, 5 to 0.

Arch Osborne was knocked out of the box by Grand Rapids, losing his game 9 to 3.

Benz, ex-Ohio Stater, was driven from the White Sox slab by those Demon Detroiters, yesterday, losing his game, 6 to 2.

LAJOIE BACK IN THE GAME

(By United Press.)
Cleveland, O., May 27.—Nap Lajoie, second baseman, who was forced into the crippled list at St. Louis, will be back in the Nap's lineup possibly this week. He practiced for two hours yesterday before the Browns-Naps game.

HUSBANDS AND HOUSECLEAN-ING.

The reason a man wants to get as far away from home as he can during housecleaning time is that everything looks so desperate and it seems as if the work never would be done. If you would use Easy Task soap the work would be over in less time and would be done more thoroughly. Easy Task isn't like the yellow soaps that leave a lot of grease and rosin behind them, it makes everything sweet and clean, and it runs the roaches away. Confidentially, it is sure death to the "critters" that like to nest in the bedsteads.

Nap Captain Is Deposed

(By United Press.)
Cleveland, O., May 27.—Short-stop Ile Olson has been "deposed" as captain of the Cleveland Naps, the result of an attack on Willie Mitchell, pitcher, last Thursday in Boston. A new captain has not yet been named by manager Harry Davis and Davis is directing the team from the coaching lines. Olson struck Mitchell in the face when they were riding from the ball park to their hotel.

COMMERCIALIZING THE PRES- IDENCY.

There remains now no doubt but
when future histories of this coun-
try shall have been written standing
out boldly will be the fact that
from 1912 A. D. the presidency of
the United States became more
than an honor, more than glory, it
became an office that pays or men
would not spend thousands to get
it.

It is practically conceded that
every political office of any signifi-
cance this day in time is a paying
office—using the word in its fullest
meaning. That Theodore Roose-
velt is not expending his own money
in his race for the presidency is a
fact. That William Howard
Taft is not digging into his own
pockets is assured. That Woodrow
Wilson ever accumulated enough
to spend as he is now spending is
certain. And the same is true of
every aspirant this year. The fact
is—and the shame of it—a price
has been put upon the presidency—
a money value.

And this presidential race has
succeeded in making the victory
ignoble. Everybody knows that
not one dollar out of ten being ex-
pended by candidates for the presi-
dency is absolutely needed. It is
argued that in this day money is
needed to get up excitement, but
what do we want excitement for?
If the money was spent to keep
people cool there would be some
sense in it. Ignorance is bad
enough but to get excited is shame-
ful.

It would be the grandest thing
that has happened for this country
in a decade if, at the coming elec-
tion, every voter would ask him-
self which candidate spent the
most money to get elected, and
then vote for the other man. As
a general rule it would work out
all right and the presidency of the
United States would no longer be
just a good job that "pays."

WHERE'S DOC OSLER?

Has anybody near seen Osler?
You know whom we mean. Doc
Osler who broke into the public
prints a few brief years ago by de-
claring that when a man had at-
tained the age of 60 he was no
longer needed in this world and
that for the sake of humanity he
ought to be chloroformed. Has Os-
ler passed that mark and secreted
himself to prevent the chloroform
bottle being passed him, or is he
where a man who would make
such a statement ought to be—in
an insane asylum.

If you know of Doc Osler's
whereabouts, call his attention to
the fact that Dr. Allyn Gerton,
aged 80 years, is the father of
twins, born during the past week at
his home in Brooklyn. The twins
came as a surprise to the aged doc-
tor, but he is so pleased he has de-
cided to keep them both. He ex-
plains that he is a Democrat and
possibly that will prevent Roose-
velt sending any congratulations
and using Dr. Gerton's name to a
testimonial against race suicide.
The doctor seemingly only wanted
to prove that members of the medi-
cal profession can be wrong—es-
pecially when they say a man's use-

fulness is lost when he reaches
sixty.

Dr. Gerton has our sincere and
heartily congratulations upon plac-
ing two more baby cabs, or even
a double one, in the regular Sun-
day morning fresh-air parade in
Brooklyn.

THE BACHELOR'S COLORED CHARGE.

One of the latest fads of rich
and blasé bachelors in some of the
larger cities of the country is the
adopting of children, and in many
instances, whole families of them.
The bachelors recommend the
resumption of the pater role as the
best known cure for ennui.

Marion, Ohio, is the latest to
claim the distinction of having a
bachelor with this fad well devel-
oped. David Vestal is his name,
and he is one of the best known
and most familiar figures on the
streets of Marion. While the ter-
ror of the small boy, since he
seems to be delegated with the
power of authority, truant officer,
he is beloved by Marion grownups
and they are watching his unique
plan to educate a young colored
girl, Naketah Williams. The girl
is located in Birmingham, Ala., and
Mr. Vestal is adopting her insofar
as seeing that she gets an educa-
tion is concerned proposes to spend
his money toward fitting the girl
for missionary work in Africa. Mr.
Vestal is not possessed of great
wealth, but his determination to
enlighten the heathen of a far
country through the agency of one
of their own race is commendable.

"I figure it this way," said the
old veteran, "It's as the poet says,
when you are educating some one
you are putting money at interest.
I guess that's so, for when I think
of the years of good that are to
follow the buying of that educa-
tional 'gum' itself seems very
small in comparison to the inter-
est and I guess it's putting money
at the biggest interest I know of
for 'the Lord.'"

A woman writer says a kiss on
the forehead denotes reverence.
We feel safe in saying the aver-
age Lima girl prefers to have her
reverence paid her right in the
middle of the mouth.

One advantage of this campaign
is that the spellbinder does not
have to confine himself to poetry.
He is apt to forget that. Now he
can call his opponent a liar, thief
or blackmailer and it goes.

much fun in reading a political

The lightest Monday morning
police court docket in weeks greet-
ed Mayor Shook in municipal court
this morning, three drunks and a
train rider comprising the crop.
Despite the fact that there were
numerous reports of alleged burg-
laries, both Saturday and Sunday
evening, the police were unable to
find any trace of the supposed
provers, and a quintet of drunks
were all that fell to the Saturday
evening dragnet.

H. Hilliards and Ben Althoff
were each fined \$1.00 and costs for
drunkenness. P. A. Chon, another
drunk, failed to appear and for-
fettered his cash bond.

Frank Cromlin, arrested by De-

vania company, for train riding,
was fined \$1.00 and costs for the
offense. Cromlin, when arrested,
was penniless. He was on his way
to Detroit in search of a job when
the strong arm of the law overtook
him.

George Killian, 21, arrested Sat-
urday evening on a charge of fight-
ing, had a hearing in mayor's court
this morning, and was dismissed.
Killian, it seems, was walking east
on McKibben street in company

arrested by Officer Snyder. Mayor
Shook held that he was justified in
his actions.

vors has been inaugurated by the
delegates to the 17th annual con-
vention of the American Federation
of Musicians, which convened in this
city today. The Federation will de-
vise its fund to the widows and
orphans of the members of the Ti-
tanic's band, and in addition will
erect a marble shaft to their mem-
ory.

The convention was opened by
President Jos. N. Weber, of New
York, who paid a warm tribute to
the heroism of the Titanic musi-
cians and suggested that the Ameri-
can organization show its appre-
ciation of their conduct by circulat-
ing a petition among its 585 local
organizations to gather funds for
the use of the widows and orphans.
This proposal was greeted with en-
thusiasm by the delegates and was
warmly seconded by other speakers
at the opening session.

Before the convention adjourns,
a committee will be appointed to
handle this matter, and to select a
suitable monument.

LEVI PHILLIPS ANSWERS CALL

WELL KNOWN FORMER RESIDENT OF CITY CLAIMED BY DEATH.

Levi Phillips, aged 66 years, 7 months and 21 days, died at his late home on a farm one and one half miles south of Beaverdam at 5:45 o'clock Sunday evening, death resulting from a hemorrhage of the brain after he had suffered an illness of two weeks duration.

The deceased was born in Knox county, Ohio, and came to this county when only six years of age and remained a citizen here until his death. For a number of years he resided in this city and for several years was in partnership in the firm of Yoakum & Phillips in the transfer business, removing later to the farm where his death occurred.

The funeral will be held from the M. E. church at Beaverdam at 10 o'clock Wednesday morning, with the Rev. Mr. Barnes officiating. Interment will be made in the Beaverdam cemetery.

The deceased leaves a devoted wife, one son, one daughter, six brothers and one sister. The brothers are Sanford Phillips, of Monroe, Michigan; James, Allen and Nelson Phillips, of Beaverdam; W. S. Phillips, of Parsons, Kas., and John Phillips, of Bowling Green and the one sister is Mrs. E. Huber, of Bluffton, O.

James H. Kindie, aged 75 years, a veteran blacksmith, died Sunday afternoon at 5:20 o'clock, at his late home, 1422 west Elm street, his death being caused by dropsy and heart trouble, after an illness which began the first of last December. He was born in Virginia and resided in this city many years. Six children survive his death.

The funeral will be conducted from the bereaved home at 2 o'clock Tuesday afternoon, with the Rev. Mr. Miller officiating. Interment will be made in Woodlawn cemetery.

Richard L. DeWall, concerning the death at Ft. Wayne Saturday of R. L. DeWall, real estate dealer who was well known here: The Ft. Wayne News, of Saturday evening published the following:

real estate dealer died shortly before noon in his room at the Wayne hotel. Death was due to a nervous collapse and came after an illness of long duration.

Mr. DeWall came to Fort Wayne on Monday and since that time had been a guest at the hotel. He did not feel well when he came and required medical attention on Tuesday. He grew gradually worse and death came today. He was fifty-four years of age and was engaged in the real estate business in Virginia. Surviving he leaves a widow and four children.

"The family home is at Frederick Hall, Louisa county, Virginia, and it is probable that arrangements will be made for sending the body there as soon as relatives arrive."

REVOLUTION ABOUT OVER

ONLY DANGER OF AMERICAN INTERESTS CALLS FOR MARINES IN CUBA.

(By United Press.)
Havana, May 27.—The cruiser Prairie, with 700 American marines aboard, reached Guantanamo naval station today and the marines were immediately landed to reinforce the small guard already on duty there. So far as the revolution in the island is concerned, it was positively asserted today by the government officials that it is entirely confined to Oriente province and that it will soon be stamped out.

Many veterans have protested against the apparent slowness of the troops in the field in moving against the bandits and as a result of this and the danger of American interests, the operations are being pushed. Two of the negro leaders in the Santa Clara province, Armerentes and Pacheco have surrendered to the authorities there. Vandalism was reported today at points in the vicinity of Guantanamo but it was the work of individuals and not of organized bands.

BANNER DAY

AT OLIVET CHURCH SUNDAY—PASTOR ARRANGES SERIES OF SERMONS.

Sunday was a banner day at Olivet Presbyterian church, more than 400 being in attendance at the Sunday school. In the evening the church was crowded, all enjoying a good sermon by Rev. Dempster.

In view of the fact that sultry summer evenings are coming along with the month of June brides and roses, and all that, Rev. Dempster has arranged a series of four sermons, the first to be delivered next Sunday evening, that promises to attract large audiences. The first will be on "The Comedy of Marriage." Then will follow in succession lecture-sermons on "A Man's Wife," "A Woman's Husband," and "Making Home."

AMUSEMENTS

ORPHEUM

The summer season at the Orpheum opened yesterday and the finest motion pictures ever shown in Lima drew good sized crowds, all afternoon and evening. This popular form of amusement will continue each day right along during the summer with an entire change of program every day. Four big reels daily showing all the latest current events of the day. Also the best comedies, dramas and historic plays produced. Any seat is 5 cents at the Orpheum.

GREAT PICTURES AT THE ROYAL.
The "Foreign Spy" is a Champion release of great import showing how countries apparently at peace are continually attempting to learn plans of other's fortifications, etc. This shows how a young lieutenant becomes susceptible to the wiles of a charming woman, and how he at a later date revenged himself.

Two other pictures equally as good form a splendid program for the day. Electric fans in abundance make this the coolest theater in town.

LIMA DIVINE GETS A CALL

YPSILANTI, MICH., CHURCH IS AFTER REV. LLOYD MORRIS.

Rev. O. Lloyd Morris, pastor of the First Congregational church called the attention of his congregation Sunday to the fact that he has received a very flattering call from the First Congregational church at Ypsilanti, Michigan. The call came unexpectedly, but Rev. Morris believes, as do his local friends that it is well worth considering. No action has of course been taken by his congregation.

Ypsilanti is a flourishing city and with a large normal and business college, within easy reach of Ann Arbor and Detroit, the work offered there is greater than in this section. Rev. Morris has been pastor of the Congregational church here for more than two years, has made many warm friends and these will await with interest his decision in the matter.

TAFT DESIRES TO MAKE SURE

WANTS NEW JERSEY DELEGATES, YET SAYS THEY'RE NOT NEEDED.

(By United Press.)
Elizabethport, N. Y., May 27.—Refreshed with Sunday's rest and avowedly determined to make the most of today and tomorrow, in his struggle for the New Jersey delegates, President Taft campaigned today along the Jersey shore. He will wind up tonight at Atlantic City, snatch a few hours sleep and will get busy tomorrow, ending his campaign only when the primary ballot boxes are opened.

The president made his first appearance today at Bayonne where he spoke for fifteen minutes to a crowd of workers. He emphasized his utterances of Saturday that he does not need the New Jersey delegates to ensure his nomination but desires all he can get.

The War in the Air AT LAST!

New Aerial Weapons Used by the Italians Against the Turks with Frightful Effect Fulfill the Forecasts of Experts

How the New Projectile Carried by Airships Is Aimed at a Ship.

have also sent similar reinforcements by way of the Red Sea, through Abyssinia and the Soudan to the hinterland of Tripoli. But these men, on foot and armed only with guns, can never seriously affect the result of the struggle.

The serious scientific Young Turks have therefore turned to their only hope—the fighting aeroplane. They have purchased models of the best fighting machines from all the countries of the world, and there are now scores of them. They have obtained them from France, Germany, England and the United States.

They have the new English machine that carries a quick-firing gun, a French machine which drops packages of dynamite accurately through a hole in the bottom, and a German machine that deals out bombs filled with poisonous gases.

The Turks have been storing up these machines for months and months. They have been training their most daring soldiers to use them with deadly effect, and even now the machines, with their crews, are being smuggled into Africa through the various channels by which guns and supplies are always

conveyed to a blockaded belligerent.

At any moment we may expect the most fantastic and terrifying combats the human mind ever conceived, combats that must rack the nerves and sear the brain of those who venture into them in a manner never yet known in warfare.

In these combats the slightest injury to the fighting machine must mean a terrible death to all within it. One touch of a revolver bullet on the delicate mechanism of the aeroplane's motor and the whole craft will go tumbling wildly down through the air, perhaps 5,000 feet, to the earth, or sands, or rocks beneath. Every human being in it will be crushed out of all human semblance.

How the hit and doomed aeroplane will struggle, like a vicious wounded vulture, to inflict just one fatal blow on its antagonist before it falls itself to perdition! In many cases, doubtless, if the combatants are really desperate, they must both fall together to a common doom of crushed and shapeless flesh.

What a bitter comment on the progress of civilization and universal brotherhood it would be if on

the zenith; something like a barrel or a huge football.

"Crash! It smashed with an immense report. It had fallen among the grounded aeroplanes that lay among the turf and flower beds near the river. They flew in scraps and fragments; turf, trees and gravel leapt and fell; the aeronauts still lying along the canal banks were thrown about like sacks; catspaws flew across the foaming water. All the windows of the hotel hospital that had been shiningly reflecting blue sky and airships the moment before became vast black stars. Bang!—a second followed. Bert looked up and was filled with a sense of a number of monstrous bodies swooping down, coming down on the whole affair like a flight of bellying blankets, like a string of vast dist covers. The central tangle of the battle above was circling down as if to come into touch with the power house fight. He got a new effect of airships together, as vast things coming down upon him, growing swiftly larger and larger and more overwhelming, until the houses over the way seemed small, the American rapids narrow, the bridge flimsy, the combatants infinitesimal. As they came down they became audible as a complex of shoutings and vast creakings and groanings and beatings and throbblings and shouts and shots. The fore-shortened black eagles at the fore ends of the Germans had an effect of actual combat of flying feathers.

"Some of these fighting airships came within five hundred feet of the ground. Bert could see men on the lower galleries of the Germans, firing rifles; could see Asiatics clinging to the ropes; saw one man in aluminum diver's gear fall flashing headlong into the waters above Goa Island. For the first time he saw the Asiatic airships closely. From this aspect they reminded him more than anything else of colossal snow shoes; they had a curious patterning in black and white, in forms that reminded him of the engine turned cover of a watch."

Henri Lanos, the brilliant and imaginative Spanish artist, has made a stirring picture of the kind of scene we may witness in the aerial war between the Italians and Turks. Here the opponents have fallen down to a common destruction, a mass of delicate machinery and lifeless men symbols alike of the highest genius of man and the cruel passions that still possess him.

The Aeroplane Shell in Transit. It Leaves a Trail of Smoke by Day and a Luminous Line at Night, Thus Enabling the Gunners to Correct Their Range.

Henri Lanos's Wonderfully Vivid Picture of the Horrors of War in the Air Which Is Now Being Realized by the Turks and Italians in the Tripoli Conflict

FOR the first time airships have played a part in real war.

"They have been used by the Italians in their war against the Turks in Tripoli, and they will soon be used by the Turks in retaliation.

This means a great revolution in war, and a very terrible one. Its significance has not yet been fully grasped. Aeroplanes have already done terrible execution. They have proved themselves capable of all the deadly and destructive effects predicted for them.

The wildly fantastic scenes of horror and bloodshed foreseen by H. G. Wells in his scientifically imaginative romance, "The War in the Air," may soon be realized. In fact they have already begun to be realized.

The news dispatches describe how the Italian dirigible balloons attacked the Turkish position at Azia, in Tripoli. Two airships dropped bombs filled with shrapnel over the Turkish encampment. The havoc they worked was terrible. Men and horses were blown to pieces. The Turks ran in every direction and quickly abandoned the camp.

A correspondent who was within the Turkish lines, and who luckily escaped with his life, thus describes the attack of the aerial fleet:

"Yesterday the enemy's dirigibles came into action, the two airships from Tripoli working westward over our lines and dropping bombs as they proceeded.

"They had over Zanzur and a bomb was dropped into that village, which killed four persons and wounded ten, all non-combatants.

"The dirigibles then turned toward the headquarters of the Turkish army, marking their path with the black smoke of exploding bombs.

"Slowly the two airships closed right over us. There was a moment of suspense, and then came a faint,

singing sound, gradually becoming louder, until, with a great crash, the first bomb burst fifty yards away from where I was standing with members of the headquarters staff, including foreign attaches."

In the battle at the oasis of Beni Hassan, the Italian aeroplanes flew over the retreating Turks and blew two thousand of them to shreds by simply dropping bomb after bomb upon them.

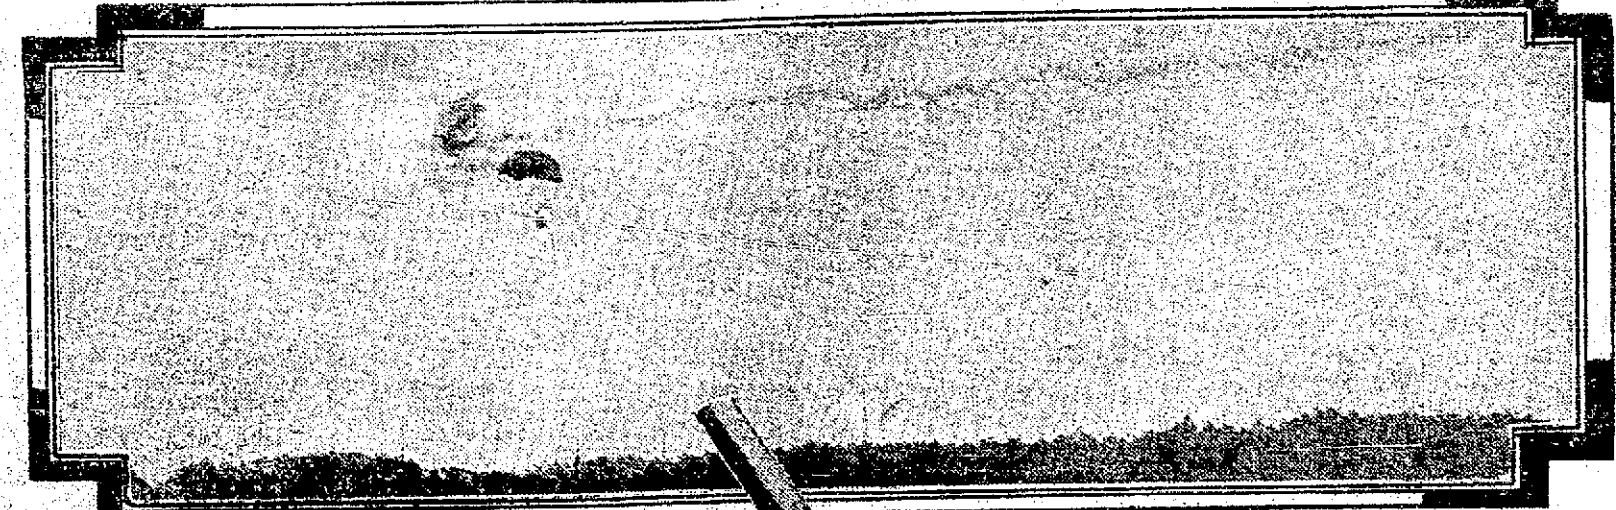

At another time the Italian aeroplanes overtook a column of Turks retreating through the desert from Kaar Zafran to Um-el-Ghorbal and blew hundreds of them to pieces. The column was so broken up that those who were not killed or mangled fled into the desert and perished from hunger, thirst and terror.

Finding from their first experiences how very effective the aerial weapons are, the Italians have secured the latest and most deadly models.

They have, among many other devices, a bomb which, dropped from an aeroplane at night, will brilliantly illuminate the position over which it is placed, thus giving the artillery an opportunity to take exact aim, which has hitherto been impossible at night.

The same bomb will create a thick cloud of smoke over a position, lasting for upward of half an hour. This will enable the artillery by day to fire accurately upon a concealed position.

In order to meet counter attacks in the air by the Turks, the Italian army has been furnished with a dozen of the new Krupp guns for fighting airships. This gun fires a shell that will not only destroy the airship which it hits, but will release gases that will suffocate all aeroplanes within a range of one hundred yards in every direction and bring them tumbling to the ground.

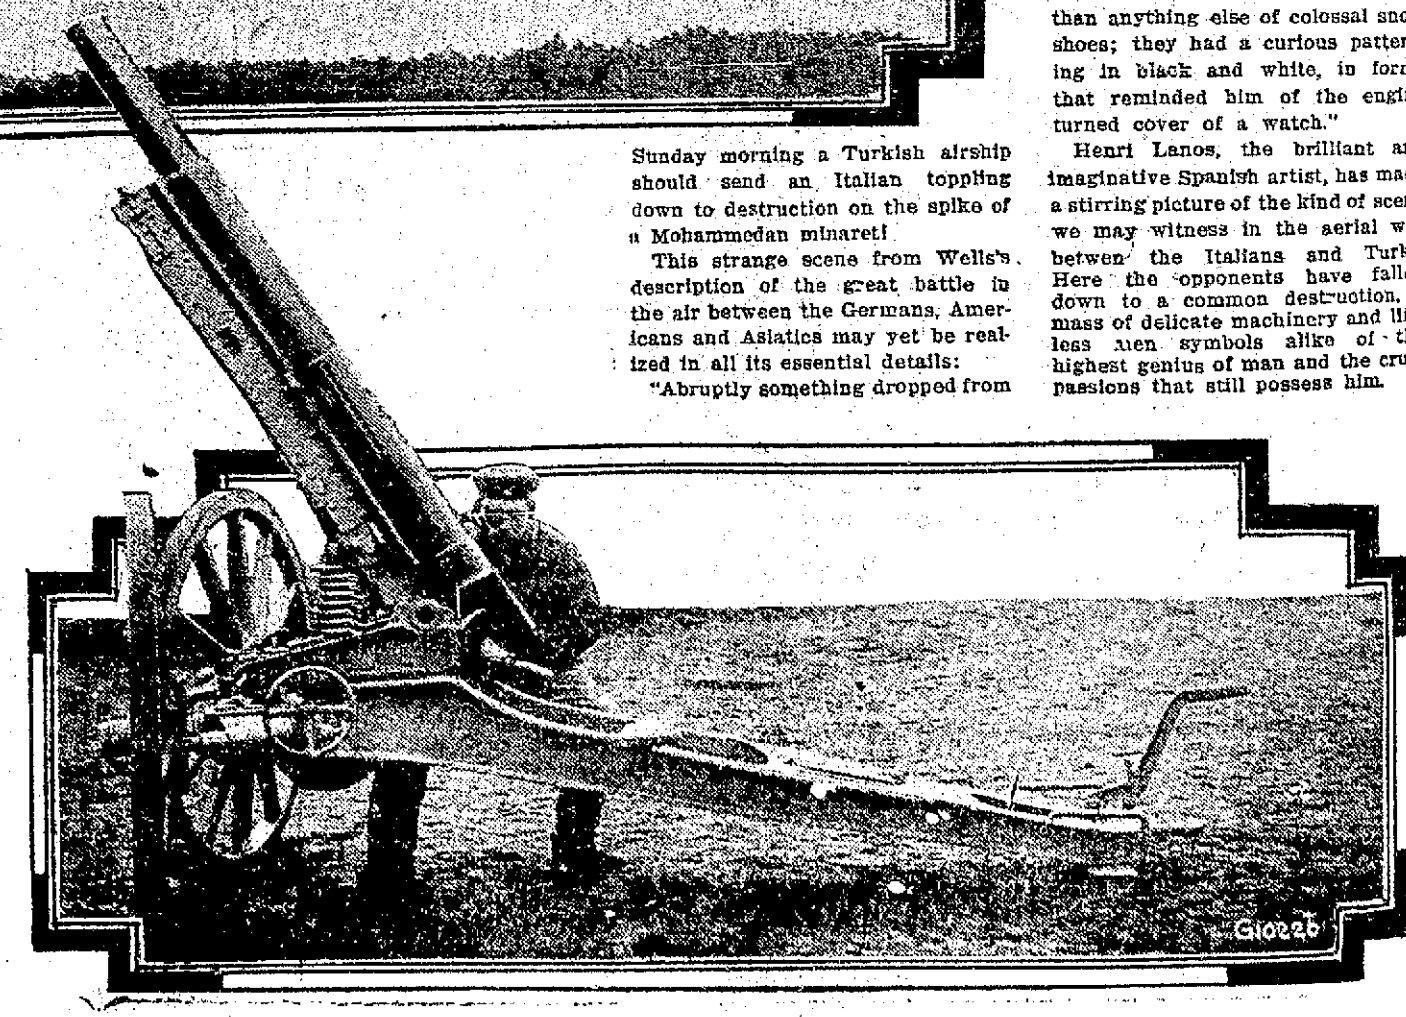

This gun can be fired vertically in the air, and the sighting arrangement is so constructed with the aid of mirrors that the gunner can aim while he stands upright.

The Turks, it is reported, have now obtained a supply of flying machines and are ready to fight back in the air. They have decided that the one last desperate chance they possess to drive the Italians out of Tripoli is by airship warfare. The Young Turks, as the men who have gained control of Turkey since the last revolution are called, are not barbarians. They include many men educated in the best European universities, and scientific schools.

These cunning Turks know that they cannot dislodge the Italians, who are now holding Tripoli in the interest of Christianity and civilization, by any methods of warfare hitherto employed. The Italians have the men and the money. They have the seacoast of Tripoli and they have the force and courage to hold it.

The Turks have no hope of sending great reinforcements by ship. They have, indeed, succeeded in landing small parties of men with supplies and ammunition surreptitiously on the coast of Tripoli. They

How the New Krupp Gun Is Used by the Italians to Destroy Air-Craft.

Sunday morning a Turkish airship should send an Italian totpling down to destruction on the spike of a Mohammedan minaret!

This strange scene from Wells's description of the great battle in the air between the Germans, Americans and Asiatics may yet be realized in all its essential details:

CITY TO HAVE SANE FOURTH

FIREWORKS OF NOISY KIND TO BE CONSPICUOUS BY ABSENCE.

"Lima will have a safe and sane Fourth," declared Mayor Shook today in discussing plans to enforce the city ordinance prohibiting the sale of fire works.

The ordinance passed by city council late last year forbids absolutely the sale of explosives and the city executive stated today that police will be notified to enforce the order strictly.

The mayor this morning received an inquiry from a jewelry establishment quoting prices of badges, medals, etc., to be used in celebrating the country's birthday in a safe and sane manner. Further the denunciation quotes the following injuries and fatalities resulting from the sale of fire works showing their decrease with the increase of the number of cities observing the day in a sane manner: "In 1909, twenty cities observed a safe and sane fourth. There were 5,307 deaths and injuries. "In 1910, ninety-one cities observed a safe and sane fourth. There were 2923 deaths and injuries. "In 1911, 161 cities observed a safe and sane fourth. There were 2803 deaths and injuries."

IRREGULARITY IN THE STOCK MARKET

IS DUE TO SURPLUS HOLDINGS IN A NUMBER OF HANDS.

New York, May 27.—The stock market opened firm with prices fractionally above Saturday's close. At 11 a. m. after the first fifteen minutes a sagging tendency developed. Governments unchanged, other bonds steady. Business was dull in the late forenoon and the market was without feature. There was some action in the afternoon.

Close strong. In stocks the outlook is for a somewhat irregular market. Speculative operations are still apparently in strong hands. Those who led the recent upward movement have not yet succeeded in distributing their surplus holdings. This probably explains in part the stubborn refusal of the market to react upon unfavorable news. Intrinsic conditions, however, are generally sound. Railroads are reporting better earnings, and labor troubles appear less serious, for the reason that such differences are being more satisfactorily settled by arbitration and negotiation than by strikes, which simply injure both parties to the contest.

Representatives George E. Foss, of Illinois, former chairman of the House Committee on Naval Affairs, who recently made an impassioned speech for two battleships on the floor of the House. WILSON, THAT'S ALL

ACCORDING TO HIS OWN WAY OF SIZING UP NEW JERSEY.

(By United Press)

Trenton, N. J., May 27.—On the eve of tomorrow's primaries Governor Wilson and Democratic State Chairman Grosscup are positive that the Democratic delegation from this state will be solid for Wilson.

Grosscup has just completed a personal investigation of the conditions in every congressional district in the state and he is positive that the sentiment is such that with perhaps the exception of the district in Newark, the governor will get all of the district delegates and the four delegates at large.

WAS ESCAPE OF GEORGE VENA IN COLLISION WITH AUTO.

HORSE IS KILLED OUTRIGHT IN ACCIDENT AT SPRING AND PIERCE.

George Vena, a transfer man of 228 Nye street, narrowly escaped seriously injury, and a valuable driving horse was killed, when an automobile owned and driven by Peter Beck, a saloonist of 206 south Main street, collided with the rig being driven by Mr. Vena, west on Spring street, Sunday afternoon at 1 o'clock. The accident occurred at Pierce and Spring streets.

The automobile with Mr. Beck at the steering wheel rounded the corner at this point and turned east. The horse and phaeton were going west. A collision was almost unavoidable and as the two crashed, Mr. Vena was thrown from the rig, escaping with minor bruises. The animal was injured so seriously that a bullet was used to put it out of its misery. The machine was unhurt.

MANAGERS

EXPECTING MANY CONTESTS AT THE CHICAGO CONVENTION.

COMMITTEE TAKES CHARGE OF COLISEUM AND BEGINS WORK.

(By United Press)

Chicago, May 27.—The Republican sub committee in charge of arrangements for the National convention today formally took possession of the Coliseum. Chairman Harry S. New, of Indiana, said that so far as the arrangements for the convention were concerned, everything promised to work out perfectly. Hotel accommodations, he said, had been arranged for the monster crowd that is expected. The contest managers on both sides in the fight for the presidential nomination are expecting 300 contests for seats in the convention this year. There were 260 years ago. Ormsby McHarg of New York contest manager for Col. Roosevelt will arrive here from St. Paul tomorrow May 29, has been fixed as the last day on which contests may be filed and the National committee is expecting many to be held off until that day. This time limit was arbitrarily fixed, it was explained at Republican headquarters and would be rigidly enforced.

WHEAT FALLS BACK A FRACTION TODAY

CORN CAN'T GET OUT OF RUT BUT OATS ARE LOOKING STRONGER.

Chicago, May 27.—Wheat attempted at the opening Monday to get back a little of its recent losses, starting off a half-cent higher for the July crop and a cent and a quarter up for September. Corn for July and September went down an eighth from Saturday's close. Oats showed some strength at the opening, selling up an eighth for July and a fourth for September. Provisions were lower all around.

The close showed wheat down 3-8, September down 1-8, corn, July down 1, Sept down 5-8. Oats, July down 1-2, Sept down 1-4. Provisions slightly higher.

Although the season is still two to three weeks backward, there has been a decided improvement in conditions during the past two weeks. The outlook for grain is much better; a large hay crop is in prospect, and in many sections of the country the outlook for fruit is for the largest yield in several years. There is also a good chance for corn, in spite of the lateness of the season. In various States it is evident that the farmers are going to plant as large an acreage as possible in order to reap the advantage of present high profitable prices. With fair average weather during the balance of the season the farmers of the West are justified in looking forward to another prosperous year.

Men and Matters

W. C. Carr, of Carey, accompanied by a quartette of Big Four railroaders, passed through this city this morning, en route to an automobile race at Indianapolis, Ind., where they will attend the big race meet on Thursday. A large number of local auto enthusiasts will also go to the Hoosier capital to witness the five hundred mile race at the big Speedway.

Hugh Hunter, well known violinist and leader of the Faurot opera house orchestra, will leave Lima tonight to go to Oil City, Pa., where he will direct an orchestra during the summer season at Monarch park, a summer resort situated between Oil City and Franklin.

HAPPY NOW.

Young Lovers Wedded in Probate By Justice Holmes.

Dorey Sawmiller, 20, and Miss Hazel Stemen, 17, both of Allen county, were granted a marriage license, with the consent of their parents, at the probate office this morning and were immediately joined in the holy bonds of wedlock by Justice of the Peace B. H. Holmes. Justice Holmes is becoming quite popular as the "marrying squire." Since assuming the duties of the office on the first of January, he has officiated at twenty-seven nuptial events.

AVIATION MEET TO BE FEATURE

CURTIS AVIATOR WILL MAKE
FLIGHTS DURING THE
CONVENTION.

RECORD BREAKING
CROWDS EXPECTED.
CITY IS READY TO GIVE
KNIGHTS OF GRIT
WELCOME.

The first aviation meet ever held in Lima, which will be given by the United Commercial Travelers, as the feature event of their convention to be held in Lima on Thursday, Friday and Saturday, June 28th, 7th and 8th, will be one of the most notable events in the history of Lima. Arrangements have been completed for three days flights with the Curtis Exhibition Company, New York, who will send two of their four most flyers to Lima with two of the latest model Curtis biplanes. The aviators will be selected from the following well known birdmen: Lincoln Beachey, who is undoubtedly the greatest flyer living, Chas. E. Walsh, who has the distinction of being the first man to fly from an altitude of over 6,000 feet; William Hemstrought, who is master of both the hydroaeroplane and the aeroplane, Beckwith Havens, the young society man of New York; Hagg Robinson, who made the Mississippi river flight last year carrying mail from St. Paul to St. Louis, and C. C. Witmer.

Many new features will be introduced at the Lima Driving Club Park where the flights will be held among these may be mentioned: a sham battle between bird men and the militia showing the use of the aeroplane in times of war; carrying the U. S. Mail; races between the birdmen and other features to be arranged for later.

DIES AT HOSPITAL

JOHN CUNNINGHAM PASSES
AWAY OF LOCOMOTOR
ATAXIA.

John Cunningham, well known plasterer, passed away Monday morning at 2 o'clock at the city hospital, death resulting from locomotor ataxia. He has been at the hospital for the past ten days. Mr. Cunningham has resided in this city for quite a number of years and had a wide acquaintance. He was born in Licking county on October 18, 1847 and spent the early part of his life in Newark and nearby.

He is survived by four children: Mrs. Rosabelle Miller, of Wapakoneta, O.; David Cunningham, of St. Marys; Mrs. Ida Doring, of Buckland, O.; and Miss Retta Cunningham, who made her home with her father in Lima. The funeral will be held Wednesday by Rev. M. B. Fuller, the exact hour not being set, and the body will be taken to St. Marys for burial.

FOR NON SUPPORT.

Frank Albert was arrested this afternoon and lodged in the city prison on a warrant issued from Justice Holmes' court charging him with non-support.

STILL ANOTHER.

(By United Press.)

Chicago May 27.—Three hundred trimmers and cutters at the R. Kuppenheimer factory one of the largest clothing manufacturing plants in the United States today went on strike and asked all the garment workers in Chicago to join them in a general walkout.

Shopping Up to Date.
"No, none of these hats suggest my personality at all. You see, I'm a great dresser, adore drama, read classics in the original, sympathize with the woman's movement, travel a good deal, and am intensely temperamental. The hat I want must convey all this."

When Walls Are Damp.
The walls of cupboards and pantries are often damp on wet or sultry days without apparent reason when other sections of the kitchen wall will be comparatively dry. The best device for any wall that is inclined to "damp" is to make it impervious to moisture by applying a varnish of one part shellac and two parts naphtha.

ORDERED TO STRIKE

(By United Press.)

Chicago May 27.—P. J. Flannery international President of the Freight Handlers union, today issued a statement in which he said that word was sent to St. Paul by a personal messenger to the freight workers in Minneapolis, ordering them to go on a strike today. No word was received here as to whether the order had been obeyed.

LOADING A MACHINE GUN

Loading a machine gun on the naval base at Guantanamo, Cuba. The order from Washington which caused the sudden voyage is said to have been caused by the alarming rumors regarding the revolt of the negroes in Cuba.

MINISTERS MEET.

At a meeting of the Lima Ministerial Association held this morning at the Y. M. C. A. parlors, plans were discussed for the pushing of the summer program. Beginning July 1st and continuing until September 1st, union services will be conducted each Sunday evening. Sunday afternoon services are to be held each afternoon, each Sunday afternoon of these two months at the various city parks. A committee was also appointed to arrange a program for the 1912 work.

PROPHET HONORED.

Governor Harmon has appointed H. S. Prophet, President of the Associated Charities, a delegate to the annual National Conference of Charities and Corrections to be held in Cleveland, June 12th to June 19th. The State Conference will also be held at the same time and place. Governor Harmon will welcome the delegates on behalf of the State and Mayor Baker will be well represented. These conferences are very interesting and educational.

SLIGHT DAMAGE.

Sparks from a passing Pennsylvania railway engine ignited with the roof of a building owned by the Crystal Ice Company at the rear of North McDonald street occupied by Emmett Scott. The central department responded to a "bing" at the noon hour and smothered the shingle blaze with slight damage.

BIG FISHING DAY.

Six hundred Lima people visited Indiana Lake and Russell's Point Sunday, over the Ohio Electric Interurban line. The popular resort was crowded with pleasure seekers on Sunday afternoon and throngs sought recreation with hook and line.

DUCKED

HEAVY FINES PROVE THE UN-
DOING OF HENRY HARPER.

AND HE GIVES UP SALOON AND
FORFEITS A BOND.

Penalties for violations of the city ordinance governing the sale of intoxicants proved too expensive for Henry Harper, a colored saloonist of 133 east Wayne street, who Saturday night found business unprofitable and closed down his dispensary. It is stated. This morning the doors of the Harper saloon were barred and the proprietor was absent. Mrs. Harper declared to a News reporter this afternoon that since their license had expired, they would likely discontinue their liquor shop.

Harper has been arrested several times of late for violations of the liquor ordinances. The most recent arrest came Saturday afternoon when he was arraigned in mayor's court on a charge of selling after hours. He pleaded not guilty and his hearing was set for Tuesday afternoon. A grand jury investigation is pending following the charge that he received a large amount of cigars stolen from a local store. Harper has been in several times previously on the charge of either Sunday selling or dispensing of wet goods on Sunday.

Harper's closed shop today gave rise to the rumor that he had skipped out and forfeited his bond on the grand jury charge. Such was denied by Mrs. Harper.

BAPTISTS ELECT

OFFICES AT CONFERENCE NOW
ON AT DES MOINES.

(By United Press.)
Des Moines, Ia., May 27.—The Northern Baptists in annual convention here today elected the following officers: President Henry Bond of Vermont, First Vice President F. Waylander, New Jersey; Corresponding Secretary W. C. Bittling, Missouri; recording secretary M. A. Levy, Massachusetts.

It is practically settled that Detroit will be chosen for the next convention.

CANT ESCAPE DEATH.

(By United Press.)
Washington, May 27.—Chester S. Jordan, a Boston actor sentenced to electrocution in 1909 for wife murder, today was denied a new trial by the Supreme Court upon his plea that one of the jurors who convicted him became insane afterward. His execution in the electric chair will proceed as a result of the decision today.

MORNING SWIM

ALMOST RESULTS IN ACCIDENT.
AL DROWNING OF S.
R. WELTY.

An early morning swim came near ending seriously for S. R. Welty 15, son of Rev. A. D. Welty, Superintendent of the Lima Rescue Home at 207 east North street, at

5:30 o'clock this morning when the lad struck his head against a rock in the bottom of the Ottawa river and was half dazed. A companion who was with him at the time, assisted him from his dangerous predicament and accompanied him home. A deep gash had been cut in the top of his head by a sharp projectile.

Young Welty in company with a boy friend, concluded to take an early morning dip in the creek and had been swimming quite a while when the accident stopped the fun.
